A letter from Wienpey concerning the far trade, says that latterly some hunters have adopted the existence of poisoning the hait in their traps with strychoise. By this means they are very successful in taking game, and the skins when brought for asis are to all appearance as good as if the animal had been captured in the usual manner; but after a while the fur falls off from the effect of the poison. The yield of fors for the present year has also been greatly diminished by the existence of small-pox among many of the Isolam tribe; and on this account the Hudson Bay Company burned up a quantity of turs which if freul from the faction, would have been worth a great deal of money.

Private letters from Chicago state that many of the women of that city, whose sons, brothers, husbands and fathers were only a few days ago men of wealth, are sending to New York for sale the remannts of their rescued liks, lages and income the fire. After the great fire in London, in September 1980, a memorial meanment, which still stands, was set up in that city. This monument bears, among other inscriptions, the following words: "At three years time the world say that finished which was supposed to be the business of an age." If this was said of London don two centuries are what would be said of Chicago now? Another inscription which ascribed the fire to a Popish "plot for extrusing ye Protestant religion and old English liberty, and ye introducing Popery and slavery." Why the whole of the female suffrage afforciates find being and moral support in the very tien of woman as a successful frummer in an archestra composed of the down-trodden," but ambitious sex. To be sure there has been no starting ability manifested by those women who have just entered upon a pathway to sectione and renown, which hitherto, has been traversed only by men. It has been one of those "flowery paths of ease" to men, and from the appearance of these modest—even prim—women it is not probable that they will find their way strewn with tuberoses. You see they have no rights to demand, not

Though "confirmations strong as Holy Writ" and as nomerous as the sands of the "ea shore, were produced to prove that Dr. Pierce, the proprietor of Dr. Sage's Catarrh Remedy, is in earnest and means what he says, when he offers \$500 reward for any case of Catarrh which he cannot cure, yet there would be some skeptics and fogies who would continue to shout "Hamby I" "Hustand I" "It cannot be. because Dr. Homespun says Catarrh cannot be cured." Now, this Dr. Homespun is the identical, good-natured oid fellow who honestly believes and persists in declaring that this earth is not round or spherical, but flat as a "sisp-jack" and does not turn over, otherwise the water would all be spilled out of Deacon Bascom's mill pond. But astronomical science has positively demonstrated and proven that Dr. Homespun is wrong in supposing this earth to be flat and stationary, and medical science is daily proving the fact that he is no less behind the times is regard to the curability of Catarrh. In shore, it has been positively proven that this world moves and that medical science is progressive—the opinion of Dr. Homespun to the contrary notwithstanding. That Dr. Sage's Catarrh Remedy will cure Catarrh, thousands who have used it attest. Heans What He Say.
